Winnipeg Lists Are Fair.

Winnipeg, Aug. 22.—The result of the first day of voting held in Winnipeg yesterday was that 87 applications for registration and eleven returns were made, with the exception of centre Winnipeg. The judges have completed their work in the case of Centre Winnipeg, but it is not yet known which will be the result. It is important that it involves the franchises of twelve men, and that the franchises of Liberal and Conservative came out about equal.

The proceedings throughout the day served to show that the registration clerks have nearly all power and the judges can show none.

The intransigence with the Roblin Government's policy, and had to be accepted by the Dominion in the given circumstances.

A notable feature was that in past registrations under the present procedure, the names of the voters would each appear with batches of thirty, forty and even one hundred names, all in one block. Once on the list it is difficult to get men off, such is the gross power of the registration clerks and the intransigence of the protest, and that day the day following registration, which is too late a time to change the list, was the name in the list. But this registration the hotel men had to fight hard to get it over. The result is that the list, with the result that the lists are clearer and more favorable to the Liberal by fully one thousand votes.

WORLD WEAKEN FINNISH POWER

Russian Approve Plan to Add Finland Province.

St. Petersburg, Aug. 24.—The Emperor has approved for submission to the Diet a bill cutting off Kivenlahti and Novgorod from the two Baltic provinces and adding them to the province of St. Petersburg. This measure is regarded as the first step in partition of Finland, which is 110,000 square miles in area, and contain a population of 30,000,000. The new province will be 10,000 square miles in area, and it skirts the coast line for a distance of about twenty-six miles to the north of the present city of St. Petersburg province.

Many years ago the question of cutting off these provinces was raised in Russia, but as Kivenlahti was then, and far as Kivenlahti was concerned, but the present attitude of Finland is one of indifference. The bill was originated with the Minister of the Interior and was made possible under the law of June 25, 1910, extending the diplomatic power of extending over Finland.

NEED HOPE DRY WEATHER.

Crops in Regina District are in imminent Danger of Frost.

Regina, Aug. 25.—On light, warm lands in Saskatchewan wheat cutting is still in progress, and in those sections where there have been frequent showers of rain, can be in danger of frost. The weather during the past week has been a dry one, and for a time ripening of the grain is concerned. Wheat, which was practically ready to cut at the beginning of the month, has been cut, but that held up by the rains previously, and still great at the beginning of the month, and is very little during the past five days. What is needed, however, is not a dry but a warm day, and when it comes there will be serious and imminent danger of frost. Many experts are of the opinion that the crop is in danger as summarized by A. F. Mantle, deputy minister of agriculture in Saskatchewan.

NOT A FALSE NOTE IN FINANCIAL CANADA

General Manager of Bank of Commerce Enthusiastic Over Country's Prosperity—Refers to Bank's Latest Venture in Peace River Country

Winnipeg, Aug. 25.—There are many signs of life activity and enterprise right here today, than in years of other days with large financial institutions declared Alexander Laird, General manager of the Canadian Bank of Commerce, after a recent trip on a tour of inspection from the coast.

Mr. Laird yesterday afternoon held a public meeting at the Canadian bank building. The ceremony was a brief one and rather an impromptu function. Mr. Laird, in referring to the corporation on their work, said that as they had laid a solid foundation under a modern banking building, so now they are in a position to make a further endeavor to lay the foundation of a powerful banking institution.

Mr. Laird said that the financial condition of the country—so far as is in splendid shape.

"On my last trip through the country, and in the days since, I could find nothing to indicate any cause for worry or anxiety, and to-day with a lame excuse, I am here to say that I look at all the more favorable. I think that there might reasonably be a little less apprehension of the crop, but the weather is still uncertain, and the crop is bound to be a large one, yet I am surprised to find people continuing to buy grain, and I think that it is not going to be the bumper crop."

"I do not feel the least trace of fear, and I am in full confidence that the financial situation in the Peace River country is much the best in the west. Our latest banking venture has been in the Peace River country, and we believe from all reports that the returns will develop into something marvellous."

RECIPROCITY OR RESTRICTION?

W. H. Sharpe, Conservative member
for Ligar, Man., speaking in the House of
Commons, April 15, 1910 (Revised Hansard
P. 7248):

Let me for a moment direct the attention of the minister to the combines existing in Western Canada. In the little town of Mowbray in 1908, the elevators handled over 300,000 bushels of wheat, but last spring a spur railway was built across the line into North Dakota and an elevator erected there with the result that last year instead of handling 300,000 bushels on the Canadian side there were only 100,000 bushels handled, while the United States elevator handled 300,000 bushels. Our farmers took their grain across the line and shipped it in bond back into Canada to lake ports, and by pursuing this course they received from 13 to 14 cents a bushel more for their grain than if they had dealt in Canada. Let me tell the Minister of Agriculture also that whereas in the province of Manitoba along the boundary line the land is worth only \$20 or \$25 and in some cases \$30 an acre right across on the American side on account of the better treatment which is accorded the farmers in North Dakota the land is worth from \$40 to \$50 an acre. Then with regard to the beef industry I might remind the minister that he has been asked many times to investigate the beef industry of the United States, Australia and the Argentine Republic, but he has always refused or neglected to do so. I represent a mixed farming community, and last year we shipped 512 cars of cattle to the city of Winnipeg. I know numbers of farmers in my constituency who always in the past have kept from 60 to 75 and 100 head of cattle, but these men are selling out their herds and going out of business because the combines are robbing them of every dollar they should make. It goes without saying that the farmers must keep stock in order to keep up the standard of their land, and if the cattle industry goes so much the worse for general farming. There were 110,000 head of cattle shipped to the city of Winnipeg last year, and all the farmers could get from the beef combine in that city was an average of \$3.87 per hundred weight, while at the same time the average price of similar cattle in Chicago was \$6.27 per 100 pounds. There must be something wrong with the cattle trade when such a condition exists. In 1907, the Roblin government appointed a commission to look into the conditions of the beef trade in Manitoba, and they found that on each beast a farmer raised in that country he lost \$5.80, that the retail dealers made an average profit of \$13.60, and the abattoir men—in other words, the great beef combine of Winnipeg—made \$23.10 per head. The public abattoir in Montreal charges \$1 for killing, so that we may infer there was a clear profit of \$22 per head to the abattoir owners, or the beef combine in Manitoba. With 110,000 head of cattle going in, the meat combine in Winnipeg took out of the producers between \$1,000,000 and \$2,000,000 more than they should have done. Is it any wonder that the producers are quitting? The combine is simply driving them out of business. The drovers from North Dakota come across to Manitoba and buy cattle and drive them across the line and pay the duty, which I think is 25 per cent.

Every Conservative should vote for reciprocity.

GETTING IN?

The despots tell us that some C.P.R. officials are to take hand in the fight against reciprocity. They are, it is reported, to come west on an expedition of some kind or other, and are to quietly circulate among the vast army of employees of the company the idea that the company would be exceedingly pleased and duly grateful if its employees would kindly vote against

reciprocity candidates. There is much in the history of the company to give credence to the report. Some officials of the company have not been in the habit of allowing the employees to go without a him as to how the welfare of the country would be best promoted in the marking of their ballots. With one solicitor of the company running against reciprocity in Brandon and another running against reciprocity in Calgary, the circumstances do not make it likely that what has been done in the past will be omitted on the present occasion. Sir William Van Horne, too, took early occasion to declare that he was bowed down by humiliation and shame to think Canadians would demean themselves by trading with people among whom he was cradled. The worthy knight seems to have conceived a peculiar detestation for the country of his birth—and no doubt for the other Van Horne's who still dwell therein. Though Sir William's declaration was followed by a reminder from another official of the company that Sir William spoke for Sir William and not for the company, still Sir William is Sir William; and among the officials of the C.P.R., Sir William has considerable influence. Unless all signs fail we therefore shall have a repetition of what has taken place in elections in times past; the circulation among the employees of the idea that if they can see their way clear to vote against reciprocity the company will be tremendously obliged and duly mindful; and when election day comes round every reciprocity trainman will find himself miles from his polling place and every anti-reciprocity trainman will be excused from a run which would take him away from home during the polling period.

It is to be remembered whether the politicians of the company will put the emphasis on the profits or the patriotism of not doing business with the Yankees. For decency's sake it is to be hoped they make the best of a poor choice and emphasize the party traditions of the Conservative party working for the best interests of Canada.

We are and to have the satisfaction of our constituents and some politicians will gladly inform the people on the issues of the day. Let us hope that the Laurier government under the immediate direction of Mr. E. D. Monk, the valiant representative of the West, will have the courage to stand up for the rights of his people in Parliament.

We have a number of banners on our hammers. Vive Vive and Vive Autonomy! DOWN WITH THE NAVY! DOWN WITH THE FEDERAL GOVERNMENT! Down with Laurier and his party!

WILL RETIRE IF DEFEATED

Sir Wilfrid Makes Dramatic Announcement at Meet-
ing Yesterday.

St. Jerome, Que., Aug. 24.—In the midst of his speech here today and just at the conclusion of a vehement attack upon the Nationalists, Sir Wilfrid made the statement that service in our navy would be obligatory, and that the navy bill was just another gesture to win honors from England. Sir Wilfrid, however, did not audience by announcing that if defeated in the coming elections, he would retire at once and not lead a naval life, as he had done in the past.

"I do not care if I am very weak," said the Premier.

The Premier did not say whether or not a word of reproof will pass my lips," said Sir Wilfrid, who is twenty years old in parliamentary life, regardless whether the Liberals or the Conservatives gained or lost a victory, but that he and his record declare that he had earned a rest. Was Sir Wilfrid's reply to the statement that naval service was the Nationalists that lead him to his announcement.

A Baseline Lie.

After giving a dramatic story of compulsory naval service as a baseline lie, he referred to the charge that no such proposal was made.

"No King," he said, "can give me the honor that I most pride, the love and respect of my countrymen."

The Premier, Sir Wilfrid continued, was that which he considered the highest of honor.

It was agreed to hear the Premier speak of age and frailty for he stood erect and firm as ever and his voice was clear and resonant. We have not seen him like this for days, while his young colleague, Hon. Rodolphe Lemieux made but a brief speech, and the Premier's voice was as clear as that of the Nationalists.

Sir Wilfrid spoke for 25 minutes.

The Premier in his address realized that there were many Conservatives in the audience and at the end of his address he turned to them and said: "I want them to be led into an alliance with the Nationalists whose 'policy' was ambiguous and indefinite."

Endorse Candidate.

Sir Wilfrid, however, endorsed the candidate of Sir George Desjardins, who was nominated by the Liberal convention for Terrebonne, in which the winning village is situated.

At the same time, Sir. Georges Desjardins ran as an Independent Liberal, but l'Amideau Riel, supported by Sir George, was elected.

The other opposition candidate is again Bruno Santel, late M.P.

Sir Wilfrid in his address dealt with the same topic in which he has handled at all meetings in this province.

He spoke of the fact which the Liberal had been experienced and emphasized the large market which responsibility would open to the Conservatives.

Today, however, he stated that the present Conservative chief are turncoats and not of the same mind as stomachs, hearts and Chaplains.

Repudiate Nationalists.

He repudiated the idea of restriction of naval service in case of defeat.

The village was well attended and the village was liberally decorated in honor of the occasion.

Other speakers were Hon. Rodolphe Lemieux, Hon. E. J. Devlin and Mr. J. E. Elliott, Liberal candidate in Two Mountains.

Dr. Fournier, president of Montreal, Aug. 21.—The Liberal convention for St. Anne's division tonight nominated J. C. Walsh, young proconservative opponent of G. J. Doherty, sitting member.

Mr. Doherty was successfully opposed by Mr. Walsh in 1904.

The other name before the convention was that of John Gally, a brother of ex-alderman Dan Gally.

The Liberal division held tonight nominated Henri Bourge, funeral director, to oppose Mr. Doherty, who is again the Liberal candidate.

Winnipeg, Aug. 24.—The result of the court of review on the voter list did not affect the names of the two candidates. The greatest increase was in Central Winnipeg, where twenty-nine names were added to the voter list. Two names were added in South Winnipeg, while two were struck off in North Winnipeg. The names of the two candidates, Dr. Gordon and Rev. Dr. Blant might have been struck off as was the case. They were not absent on the voter list, however, and were still on the voter list.

Count Katsura Resigns.

Tokio, Aug. 24.—Count Katsura today tendered his resignation as premier. He is Marquis of the Imperial Household and is the author of the present post. The cabinet of which Count Katsura is premier and minister of finance was formed June 11, 1908.

The resignation of Count Katsura was forecast nearly a month ago, and it was known that many changes in the department had been under consideration.

Will Sustain Officers.

Pedabu, Ky., Aug. 24.—Appreciating the 7,500 of the members of the Illinois Central Railway employees have voted to sustain its officers in their efforts to retain their posts, the government has given the order to the extent of calling a strike if necessary, according to information given at the federation headquarters to-night.
